SOFTWARE DEVELOPMENT & AI

# ANISH GOYAL

M.Sc. Information Systems student at the Technical University of Munich (B.Sc. Business Informatics) with hands-on experience in Java/Quarkus and Python backend development, Angular, and AI automation with OpenAI APIs, Langdock and Amazon Bedrock. Builds and tests LLM-based services end to end – from prompt handling and orchestration to functional and integration testing – and works with Kafka, Terraform, Kubernetes and Docker in CI/CD pipelines. Interested in building reliable, scalable software and AI services in agile teams.

## CONTACT

+49 176 727 28812

goyalanish886@gmail.com

Munich, Germany

## SKILLS

**PROGRAMMING**
Java, Python, TypeScript
SQL, R, Swift

**WEB & APP DEVELOPMENT**
Java/Quarkus, Angular
Flutter, Go, REST APIs

**AI & MACHINE LEARNING**
OpenAI API, Langdock, LLM APIs
Amazon Bedrock, RAG & prompt engineering
PyTorch basics, open-source LLMs
Vision Transformer

**CLOUD & INFRASTRUCTURE**
AWS, Apache Kafka, Terraform
Kubernetes, Docker
(initial hands-on experience)

**TESTING & TOOLS**
Postman, functional & API testing
CI/CD, Git, GitHub, GitLab
Atlassian (Jira, Confluence)

## WORK EXPERIENCE

### WORKING STUDENT AI & AUTOMATION
**Auxmoney**
Oct 2025 – Present

- Develop and integrate AI-powered internal services with OpenAI APIs and Langdock that automate recurring business and engineering workflows.
- Build backend logic for AI service orchestration: prompt handling, API communication, response validation and error handling.
- Design test scenarios and validate model outputs to evaluate LLM workflows and track down quality issues.
- Run functional and integration tests to improve the reliability and deployment readiness of AI services.
- Work with AWS (Amazon Bedrock), Apache Kafka, Terraform, Kubernetes and Docker across the deployment pipeline.

### WORKING STUDENT PRODUCT MANAGEMENT
**Ippen Digital**
Dec 2023 – Apr 2024

- Contributed backend features in Java/Quarkus that improved product functionality and system reliability.
- Managed configurations for approximately 80 websites.
- Supported product management in streamlining team workflows and project coordination.

### IPRAKTIKUM – APP DEVELOPMENT LAB
**Technical University of Munich**
Oct 2023 – Feb 2024

- Developed a lecture streaming app with live and on-demand video, chat, quizzes and downloads using Flutter and Go.
- Contributed to CI/CD, UI design and issue tracking on GitHub.
- Worked in an agile team with rotating roles in meeting moderation, issue creation and feature coordination.

## SOFT SKILLS

- Adaptability
- Self-motivation
- Leadership
- Teamwork
- Reliability

## LANGUAGES

- German (C1)
- English (C2)
- Hindi (Native)
- Turkish (A1)

## WEBSITES

**LinkedIn**
bit.ly/4nRsf3h

**GitHub**
github.com/Anishyou

## TECHNICAL PROJECTS

### COMPUTER VISION – STREET ISSUE DETECTION
**FAST TRADE, Jaipur**

- Contribute to a computer vision application that automatically detects street and infrastructure issues from image data.
- Support dataset preparation, annotation review, model testing and evaluation with PyTorch and open-source LLMs.

### BACHELOR THESIS – VIDEO TRANSCRIPTION & INTERACTIVE PLAYBACK PLATFORM
**Technical University of Munich**

- Developed a Python transcription backend that processes video/audio content and generates synchronized transcripts.
- Built a custom Angular video player that shows the transcript alongside playback with interactive navigation.

## EDUCATION

### TECHNISCHE UNIVERSITÄT MÜNCHEN
**M.Sc. Information Systems**
Oct 2026 – Present

### TECHNISCHE UNIVERSITÄT MÜNCHEN
**B.Sc. Business Informatics**
Oct 2022 – Oct 2026

### STUDIENKOLLEG (UNIPARK DRESDEN & ESKW MAGDEBURG)
**University preparatory course**
Mar 2019 – Jan 2020

## VOLUNTEER WORK

### VP OF EVENT MANAGEMENT
**DEGIS Munich City Chapter**
Sep 2022 – Mar 2023

- Led and coordinated events for international students, from planning and promotion to execution.

### VP OF MARKETING TEAM
**DEGIS Munich City Chapter**
Sep 2021 – Sep 2022

- Created and promoted social media campaigns that increased event participation; designed visual content in Canva and supported external communications.
