Open to Munich hybrid roles

SKILLS

BACKEND & DATA

Java, Python, SQL
REST APIs
Spring Boot: university and bachelor's thesis

FRONTEND & APPS

Angular, TypeScript
Flutter, Swift

AI & DOCUMENTS

OpenAI APIs, Langdock
Open-source LLMs
PDF question answering
Basic PyTorch

TESTING & DEVELOPMENT

Functional, API and integration testing, Postman
CI/CD, Git, GitHub, GitLab
Atlassian, Claude Code, Cursor

CLOUD & INFRASTRUCTURE

Initial hands-on exposure:
AWS, Amazon Bedrock
Kafka, Terraform
Kubernetes, Docker

PROFESSIONAL EXPERIENCE

WORKING STUDENT - AI & AUTOMATION

auxmoney
Oct 2025 - Present

- Develop and integrate internal AI services using OpenAI APIs and Langdock to automate business and development workflows.
- Implement backend logic for AI workflows, including prompt processing, API communication, response validation and error handling.
- Create synthetic PDF test data to test and evaluate services and document-processing workflows.
- Design test scenarios, validate outputs and perform functional and integration tests to assess service quality and reliability.
- Gain hands-on exposure to AWS/Bedrock, Kafka, Terraform, Kubernetes and Docker; use Cursor in software development.

WORKING STUDENT - PRODUCT MANAGEMENT

Ippen Digital
Dec 2023 - Apr 2024

- Contributed to Java backend development to improve product functionality and system reliability.
- Managed configurations for approximately 80 websites and supported product and team workflows.

SOFTWARE DEVELOPMENT PRACTICAL COURSE

Technical University of Munich
Oct 2023 - Feb 2024

- Developed a lecture-streaming application with Flutter and Go, including live and on-demand playback, chat, quizzes and downloads.
- Contributed to CI/CD, UI design and GitHub issue tracking; collaborated in an agile team and coordinated feature development.

TECHNICAL PROJECTS

BACHELOR'S THESIS - VIDEO TRANSCRIPTION & INTERACTIVE PLAYBACK

Technical University of Munich

- Developed backend functionality with Java/Spring Boot and Python for video and audio transcription with synchronised transcripts.
- Built an Angular video player with transcript display and interactive frontend features.

LOGPT - LOCAL PDF QUESTION ANSWERING

- Developed a local GPT application to answer questions about PDF content and provide targeted access to document information.

CHATBOT DEVELOPMENT

FAST TRADE

- Developed a chatbot for FAST TRADE.

COMPUTER VISION - ROAD DEFECT DETECTION

FAST TRADE, Jaipur

- Contributed to road and infrastructure defect detection through data preparation, annotation review, model testing and evaluation.

EDUCATION

TECHNICAL UNIVERSITY OF MUNICH

B.Sc. Information Systems (Wirtschaftsinformatik)
Oct 2022 - Oct 2026

STUDIENKOLLEG

University Preparatory Programme
Unipark Dresden & ESKW Magdeburg
Mar 2019 - Jan 2020

VOLUNTEERING

DEGIS MUNICH CITY CHAPTER

Vice President, Event Management | Sep 2022 - Mar 2023
Vice President, Marketing Team | Sep 2021 - Sep 2022

Planned and coordinated events; designed and promoted social media campaigns.
